

'96 Racers - Coaching Staff Gets Stronger

I am happy to announce that our PeeWee Minor coaching staff just got another strong boost. Grant Block has agreed to join Jon Laughner and me as an assistant coach.

Grant's hockey credentials are obvious and Jon and I are excited to work with him. Practices will be very productive with three experienced hockey guys teaching players in smaller groups. This is truly an ideal environment for both players learning, and coaches instructing.

Grant will enjoy being able to concentrate on teaching the kids the finer points of hockey without having to deal with changing lines, killing penalties and solving team issues. Assistant coach is a great job: Limited responsibility overall, yet close relationships with the players and the game.

Grant has a strong passion for hockey and many positive relationships with players he has helped to develop over the years. It's great that they will continue.

Jon and I are thrilled to be adding an excellent coach to our group. Thank you Grant!

It feels like we have already scored one for the team, when in actuality, the '96 travel hockey players are the real winners.
